CONTENTS

Preface

List of Contributors

XVI LORENZINI ANNUAL LECTURE

Estrogen Receptor â — A Multifaceted Player
J.-A. Gustafsson

XVII LORENZINI ANNUAL LECTURE

Andropause at the Beginning of the New Century: A Few Remarks on Hormones and Aging of Men
E.-E. Baulieu

BONE AND JOINTS

1. Mechanisms of Estrogen Regulation of Bone Turnover And Bone Mass
   B.L. Riggs

2. Genetics of Osteoporosis
   L. Gennari, L. Becherini, A. Falchetti, L. Masi, and M.L. Brandi

3. The Intrauterine Programming of Osteoporosis
   C. Cooper, M.K. Javaid, K. Walker-Bone, E.M. Dennison, and N.K. Arden

4. The Role of Menopause in Bone and Joint Health: Implications for Osteoarthritis and Osteoporosis
   MF. Sowers

OSTEOPOROSIS PREVENTION UTILIZING NOVEL COMPOUNDS

5. Novel Compounds Acting Through Receptors and Enzyme Mediators
   T.M. Penning

6. Tibolone Is Effective in Preventing Postmenopausal Bone Loss
   J.C. Gallagher
IMMUNE SYSTEM AND INFLAMMATION

7. Sex Hormones and the Immune System: Implications for Menopause and Autoimmunity
   G. Mor

HORMONE REPLACEMENT THERAPY

8. Routes of HRT Administration. When to Use Oral Or Transdermal Administration
   G. Samsioe

9. The Role of Antiandrogens in Peri- and Postmenopausal HRT
   H.P.G. Schneider

SEX STEROIDS AND REPRODUCTION

10. Sex Steroid-Sensitive Reproductive Tissues in Women During Reproduction and Menopause
    F. Naftolin, P. Rinaudo, F. Abushahin, and E. Sze

CARDIOVASCULAR DISEASE

11. Does Menopause Increase the Incidence of Coronary Heart Disease?
    Y.T. van der Schouw

12. Reducing Cardiovascular Risk in Postmenopausal Women: Estrogen or Statins?
    R.O. Cannon, III

13. Effects of Estrogen Replacement in Women with Coronary Disease
    D.M. Herrington and K.P. Klein

HRT AND CARDIOVASCULAR DISEASE: A NEW APPROACH

14. Recent Findings in Cardiovascular Disease
    R.A. Lobo

15. Hormone Replacement and Cardiovascular Disease
    K.C. Johnson

16. The Role of Potassium
    P. Kowey

17. Aldosterone-Receptor Blocking Agents
    B. Pitt
18. Progestogens: New Approaches
   R.A. Lobo

CANCER

19. Aromatase, Nuclear Receptors, Adipose Tissue, and Breast Cancer
   E.R Simpson, C. Clyne, C. Speed, and G. Rubin

20. Environmental Factors Related to Cancers in Postmenopausal Women
   L.A. Brinton

21. Growth Factors and Cancer – the Role of Insulin-like Growth Factors
   H. Yu

22. Postmenopausal Hormone Use and Endometrial Cancer: Reassessment of
   the Epidemiological Data
   G.A. van Unnik, C.W. Burger, and P. Kenemans

23. Hormone Replacement Therapy and Breast Cancer: Still More Questions
   Than Answers
   S.M. Love

24. Hormonal Approach to Breast Cancer Prevention and Treatment
   J. Russo and I.H. Russo

EMERGING DIRECTIONS IN MENOPAUSE MANAGEMENT: LOWERING HRT DOSES

25. Healthy Postmenopausal Women Receiving HRT Are Not at Risk for Early
   Coronary Events: Results from 2 Large Clinical Trials
   G.D. Constantine, J.H. Pickar, E.A. Trott

   Menopause Clinics in Italy
   C. Donati Sarti, P. Monteleone, M. Gambacciani, F. Parazzini on behalf of
   the Progetto Menopausa Italia

STRESS INCONTINENCE

27. Less Invasive Surgery in Stress Incontinence
   J. Bidmead and L. Cardozo
CENTRAL NERVOUS SYSTEM AND MOOD DISORDERS

28. An Overview of Hormones and Brain Function
   B.B. Sherwin

29. Mechanisms of the Neuroprotective Effects of Estrogen
   S. Belcredito, E. Vegeto, C. Meda, and A. Maggi

30. Neurosteroids

31. Randomized Trials of Estrogen for Memory and Dementia
   V.W. Henderson

32. Estrogen and Androgen: Mood, Sexual Function, and Quality of Life in the
    Menopausal Woman
   J. Leventhal Alexander, K. Kotz, and S. Davis

INTERNATIONAL POSITION PAPER ON WOMEN’S HEALTH AND MENOPAUSE: A COMPREHENSIVE
APPROACH (National Heart, Lung, and Blood Institute [NHLBI] and the Office of
Research on Women’s Health [ORWH] at the U.S. National Institutes of Health [NIH],
Bethesda, Maryland, USA and the Giovanni Lorenzini Medical Science Foundation of
Milan, Italy and Houston, Texas, USA)

33. Women’s Health and Menopause: A Comprehensive Approach
    N.K. Wenger

34. Gynecologic and Urogynecologic Aspects of Menopause
    S.L. Hendrix, P.G. Crosignani, and V.W. Pinn

35. Cardiovascular Disease in Women
    J.E. Rossouw, P. Collins, N. Wenger, and R. Paoletti

36. Menopause and Disorders of Neurological Function and Mental Health
    V.W. Henderson and S.M. Resnick

37. Menopause Hormone Replacement Therapy and Cancer: Epidemiology
    C. La Vecchia, L.A. Brinton, and A. McTiernan

38. Sociocultural Issues in Menopause
    A. Collins
EATING BEHAVIOR AND NUTRITION

39. Exercise Effect on Body Weight in Postmenopausal Women: The Physical Activity for Total Health Study
   M.L. Irwin and A. McTiernan

QUALITY OF LIFE

40. Quality of Life: Asian Women and the Menopause
   T. Aso

41. Sexuality, Midlife, and Menopause
   L. Dennerstein, P. Lehert, and H. Burger

WOMEN’S HEALTH AND MENOPAUSE IN RESEARCH AND CLINICAL PRACTICE

42. Women’s Health and Menopause in Research and Clinical Practice: Session Summary
   V.W. Pinn, M.J. Legato, J.E. Manson, and C. Goertz

NEW DRUGS AND TRIALS

43. Women and CHD: The Case for Prevention
   D.J. Gordon

44. Bone and Statins
   G.R. Mundy, I.R. Garrett, and G. Gutierrez

SELECTED U.S. GOVERNMENT SPONSORED WOMEN’S HEALTH MENOPAUSE INITIATIVES

45. Selected U.S. Government Sponsored Women’s Health Menopause Initiatives: Session Summary
